[J. Res. Natl. Inst. Stand. Technol. Volume 105, Number 6, November-December 2000, p. 829]

The right-hand sides of Eqs. (16)–(19) should be divided by $4\pi\epsilon_0$ in order to make them correct in SI units. In Eq. (52), the spherical harmonic $Y_{2,0}$ should be multiplied by r^2 . None of other results of the paper are affected by these errors.
